

# When to Get Vaccines Birth to 16 Years

CC = Child care  
ECP = Early Childhood Programs  
K-12 = Kindergarten through 12th grade  
7-12 = 7th through 12th grade

**Concerned about cost?**  
Free or low cost vaccinations are available. Talk to your doctor or clinic.

It's not too late! If your child has fallen behind on their vaccinations, talk to your doctor or clinic to catch them up.

Minnesota law requires written proof of certain vaccinations for children in child care, early childhood programs, and school. However, if a child has a medical reason or if his/her parents are conscientiously opposed to any or all of the vaccinations, a legal exemption is available.

**Children with certain medical conditions may need additional vaccines** (e.g., pneumococcal or meningococcal). Talk to your doctor or clinic.

**Pregnant?** Protect yourself and your baby from whooping cough, get a Tdap vaccination between 27 and 36 weeks gestation. Talk to your doctor.

\*The **number of doses** depends on the product your doctor uses.

For copies of your child's **immunization records**, talk to your doctor or call the Minnesota Immunization Information Connection (MIIC) at 651-201-5503 or 1-800-657-3970.

Key to vaccine abbreviations
